Once you have an account set up you should see your Dashboard displayed.

Under the section "My Storage" there is a link that says "find my storage unit" There you can add your unit if it is not already visible after signing in. You will need to input the phone number on file at the facility and the unit number you want to add to your profile.

Once you add your unit you can pay your rent, edit your contact information, and edit your email/text reminders right from your dashboard!
